

Title: Environmental Policy

Document No: Policy/BLMS/EMS/01
Policy No. 02
Release Date. 10.05.2025

Revision No. 00
Date of Revision:

Environmental Policy

BlueLine Marine Services, an independent global marine and cargo consultancy, is committed to protecting the environment and conducting its operations in an environmentally responsible and sustainable manner. Our Environmental Policy is aligned with ISO 14001:2015 and reflects our commitment to:

- **Compliance:** We shall comply with all applicable environmental laws, regulations, international conventions, and other requirements relevant to our operations, services, and stakeholders.
- **Pollution Prevention:** We are committed to preventing pollution through responsible resource consumption, proper waste management, reduced emissions, and environmentally conscious operational practices.
- **Continual Improvement:** We will continually improve our environmental management system (EMS) and performance by setting measurable objectives, reviewing progress, and integrating environmental considerations into business planning and risk management.
- **Climate and Sustainability Action:** We acknowledge the urgency of climate change and its impact on marine ecosystems. We commit to reducing our carbon footprint, promoting energy-efficient practices, and supporting climate-resilient services where feasible.

This policy is communicated to all employees and relevant stakeholders and is reviewed periodically to ensure its ongoing suitability, effectiveness, and alignment with the mission of BlueLine Marine Services as a world-class provider of marine survey and consultancy solutions.
